PROFESSIONAL SUMMARY

Three years of progressive experience as a fully remote Business Analyst, successfully leading multiple complex projects from initiation to deployment. Specializing in financial technology and leveraging strong analytical and technical skills (Postman, Python, Advanced Excel, JIRA) to translate business needs into executable technical specifications and drive data-backed process improvements across diverse industries.

WORK EXPERIENCE

BUSINESS SYSTEM ANALYST- Feb 2026 - NOW
ALPHARED SOLUTIONS, MALAYSIA, remote

BUSINESS ANALYST- Mar 2022 - Feb 2025
NEXSTACK, SINGAPORE, remote (3 years)

- Collaborated with remote stakeholders across 5 global time zones to gather, analyze, and document comprehensive business requirements, producing over 50 detailed user stories and functional specifications for financial advisory products.
- Managed the full product lifecycle within an Agile/Scrum framework. Utilized JIRA extensively for backlog grooming, sprint planning, and issue tracking, ensuring all development activities aligned with stakeholder priorities and delivery timelines.
- Designed and executed test cases for system APIs and backend services using Postman, significantly reducing integration errors and validating data accuracy for complex financial calculations.
- Built and maintained advanced Excel models (leveraging array formulas, pivot tables), and Power BI for detailed financial reporting and forecasting. Utilized SQL and Python to automate the extraction and transformation of large datasets, reducing manual reporting time by 20%.
- Maintained clear and professional communication with senior management and technical teams, serving as the critical link between high-level business goals and technical execution across both local and remote setups.

QA TESTER - April 2020 - June 2020

Myanmar Institute of Business, INTERNSHIP (3 months)

- Executed manual and automated test cases to verify software functionality against design specifications, identifying and documenting defects and issues.
- Gained foundational knowledge in system development life cycles (SDLC) and testing methodologies, contributing to a more stable and reliable internal system.
- Assisted the Senior in tracing the bugs and assigned the bugs to the relevant developer.
- Brainstormed with the Designer for the Design Development and attended the workshops with the client.

TECHNICAL SKILLS

- Requirement Management & Elicitation
- SQL and Database Querying
- Data Visualization (Power BI)
- Python (Pandas), Statistics
- Agile/Scrum Methodologies
- Process Modeling (BPMN)
- Jira/Confluence, Click Up
- User Stories, Use Cases
- Lucid chart, Draw.io, Figma

SOFT SKILLS

- Stakeholder Management
- Cross-Functional Collaboration
- Problem Solving
- Critical Thinking
- Decision-making
- Negotiation, Conflict Resolution
- Adaptability, Flexibility
- Teamwork

EDUCATION

BACHELOR OF COMPUTER TECHNOLOGY (B.C.Tech)
Computer University, Loikaw | 2015-2025
(Extended due to Covid and political situation)

CERTIFICATIONS

- Microsoft Business Analyst [Microsoft]
- IBM Data Analyst [IBM]
- Seed For the Future, 2020 [Huawei]
- Foundations of Software Testing and validation [University of Leeds]

LANGUAGES
